GAGE HARTER

SECONDARY BIOLOGY & GENERAL SCIENCE TEACHER

Utah Professional License | IB MYP Sciences Category 1 | Cambridge & International Experience
Forest Grove, Oregon, USA | +1 971-334-2280 | gageharter1996@gmail.com
gageharter.github.io | Available August 2027

PROFESSIONAL PROFILE

Licensed secondary biology and general science/STEM teacher with four years of full-time international classroom teaching in Cambridge Primary and Montessori settings across Cambodia and China, recent biology teaching in grades 8-10, and current leadership in middle-school STEM curriculum development, outreach, and instruction at Portland State University. Brings IB MYP Sciences Category 1 training, inquiry- and concept-based planning, project-based curriculum design, and two years of intensive special education learning and behavior support. Experienced with multilingual and neurodiverse learners and comfortable adapting across curricula, cultures, and school settings.

LICENSURE, IB TRAINING & EDUCATION

Utah Professional Educator License — Biology 1, Biology 2, Science Core; valid through June 2031
Oregon Reciprocal Teaching License — Biology endorsement; valid through May 2027
IB Professional Development — MYP Sciences (English), Category 1; completed July 2026
Western Governors University — B.S., Science Education - Secondary Biological Science; May 2026

TEACHING STRENGTHS

Biology & General Science • IB MYP Unit Planning • Cambridge Primary • Inquiry & Concept-Based Learning • Laboratory & Modeling Investigations • Project-Based STEM • Formative Assessment • Differentiation & Learning Support • EAL/Multilingual Learners • Educational Technology

RECENT TEACHING & EDUCATIONAL EXPERIENCE

Lead STEM Instructor - Curriculum Development & Outreach | Portland State University | Portland, Oregon — **2025-Present (Seasonal)**

- Developed a 10-day interdisciplinary Mission Design curriculum during a month-long pre-program design cycle, creating instructor guides, student materials, role-based learning pathways, and assessment checkpoints.
- Conducted two months of school and community outreach and participant recruitment for a free, project-based STEM program serving middle-school students.
- Lead hands-on instruction for approximately 180 students in grades 6-9, integrating scientific systems thinking, coding, robotics, Tinkercad 3D design, Delightex VR/AR, micro:bit, Sphero RVR, and physical prototyping.
- Guide teams through testing, revision, technical problem-solving, and public presentation while differentiating entry points for novice and advanced learners.

Biology Student Teacher | Gaston Jr./Sr. High School | Gaston, Oregon — **Jan-May 2026**

- Planned and taught standards-aligned biology and life science in grades 8-10 through laboratory investigations, modeling, discussion, and evidence-based explanation.
- Designed learning sequences on photosynthesis and cellular respiration, the cell cycle and cancer, carbon cycling, ecosystems, and scientific argumentation.
- Used formative assessment, collaborative learning, and claim-evidence-reasoning writing to adjust instruction and support students with varied academic, language, and behavioral needs.

Special Education Skills Trainer | Oak Grove Academy, Forest Grove School District | Gales Creek, Oregon — **Jun 2023-Aug 2025**

- Provided individualized academic, behavioral, communication, and life-skills support for students in grades 6-12 with significant and varied learning needs.
- Applied Safety-Care training, structured routines, positive behavior supports, and de-escalation strategies while collaborating with teachers, specialists, administrators, and families to maintain safe and inclusive learning environments.

INTERNATIONAL CLASSROOM TEACHING

Cambridge Primary Teacher (Grades 3-4 Multi-Age) | IDEA Source International School | Sihanoukville, Cambodia — **Jun 2019-Jul 2020**

- Led a blended Grades 3-4 Cambridge Primary classroom for international students, planning instruction across two grade levels and monitoring student progress.
- Designed differentiated, inquiry-based lessons that supported varied readiness and English proficiency while promoting student questioning, discussion, and independent thinking.

Montessori Teacher (PK-2) | Vera Montessori International Children's House | Liyang, Jiangsu, China — **Jul 2018-Jun 2019**

- Facilitated Montessori-informed learning through hands-on materials, language development, practical routines, creative activities, movement, and student choice.
- Collaborated across languages and cultures in an international early-learning environment and supported positive family-school relationships.

Cambridge Primary Teacher (Grades 3-4) | Excellence International School | Sihanoukville, Cambodia — **Sep 2016-Jul 2018**

- Taught Cambridge Primary English, mathematics, and science to international students in Grades 3-4.
- Planned cross-curricular learning and differentiated instruction for varied language proficiency, prior knowledge, and cultural backgrounds.

ADDITIONAL TEACHING EXPERIENCE

Substitute Teacher - Middle/High School Generalist | ESS Education | Hillsboro, Oregon — **Apr 2026-Present**

- Provide classroom continuity across secondary subjects, establish clear routines quickly, and adapt instruction to varied student needs and school expectations.

Online ESOL Teacher | Wise Education Online | Remote / Da Nang, Vietnam — **Sep 2019-Apr 2021**

- Taught live online English lessons for grades 2-6 using visual supports, interactive tools, adjusted pacing, and individualized feedback.

SELECTED SCIENCE CURRICULUM & PROGRAM DESIGN

- Designed an MYP Year 3 Sciences unit during Category 1 training on cell types and function, organized around the key concept of systems, a scientific and technical innovation global context, ATL skill development, and criterion-related assessment.
- Created inquiry-based secondary biology experiences using laboratory investigations, scientific models, peer discussion, misconception checks, and claim-evidence-reasoning writing.
- Designed multidisciplinary STEM challenges connecting scientific systems, engineering design, digital modeling, robotics, prototyping, testing, revision, and public presentation.

TECHNOLOGY & INCLUSIVE PRACTICE

Instructional Technology	Tinkercad, Delightex, VR/AR, micro:bit, Sphero RVR, Google Classroom, Gimkit, Kahoot, and digital modeling tools.
Inclusive Practice	Differentiated instruction, positive behavior support, structured routines, Collaborative Problem Solving principles, and support for multilingual learners and students with disabilities.

ADDITIONAL PROFESSIONAL DEVELOPMENT

Safety-Care Training • TESOL Certificate • Collaborative Problem Solving Training
